

From Bits to ~~Bits~~ Bytes

Software Development for Genetics, Genetic Resources, Plant Breeding and Genebanks

SSCR Winter Soft Fruit Meeting
23rd February 2023 Dundee

Paul Shaw

The International Barley Hub/James Hutton Institute Scotland

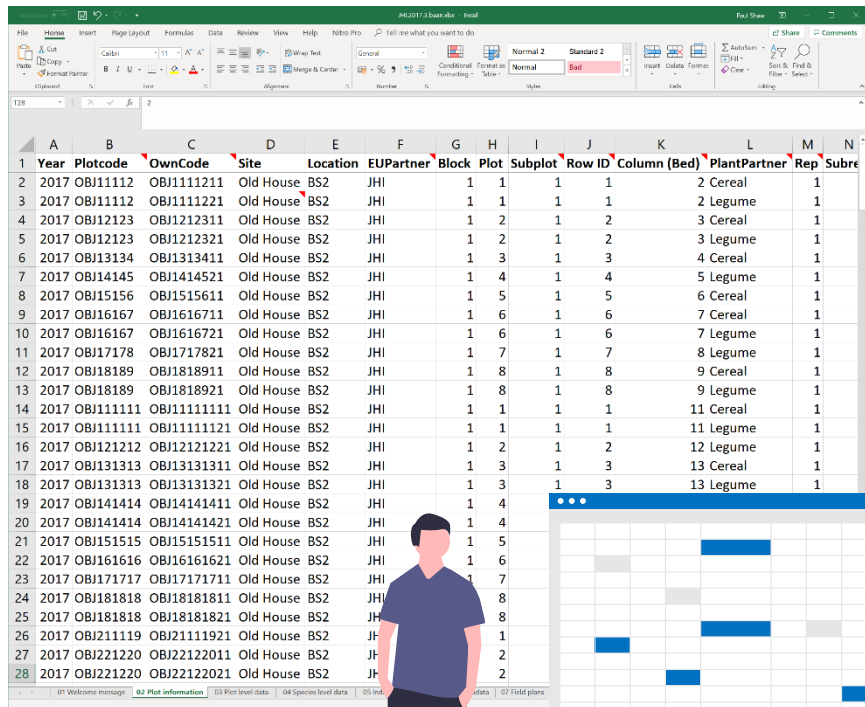

The challenge

- Our science is producing **larger** and **more complex** datasets.
- We need to provide the infrastructure and tools to **store, explore, interact** and **understand** these large datasets.
- We need to develop tools to help provide **insight** into complex biological data.
- We need to provide **easy access** to huge volumes of data in **digestible** chunks.
- Show **relationships** between data that may not be visible in raw data.
- It's not about telling people what to think but giving them tools to look for **patterns** and **visual cues**.

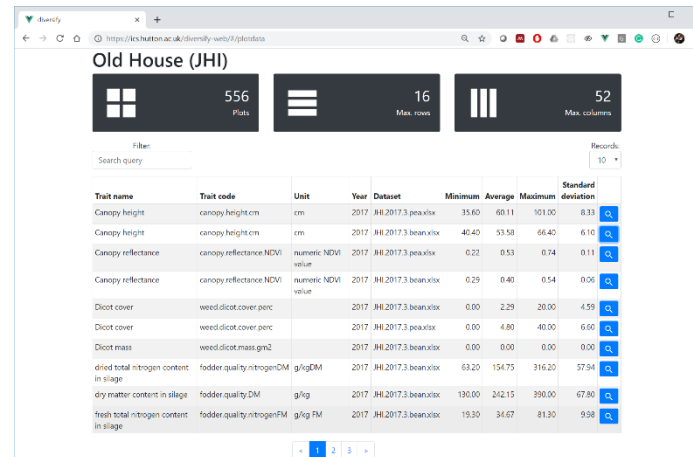

In a nutshell...

Year	Plotcode	OwnCode	Site	Location	EUPartner	Block	Plot	Subplot	Row ID	Column (Bed)	PlantPartner	Rep	Subre

Heatmap

Please select a trait in the selection box below. The shown graph shows the field layout where each colored box represents a plot. The color of each plot is shown on a gradient scale. For numeric traits, this will represent the actual value, for time-based traits and text traits, this shows the scoring date as the number of days since the first scored plot. For categorical traits, the color represents the category value.

Summary

- All our software is free to use, most is open source.
- We will be adding a lot of soft fruit data under the EU H2020 BreedingValue Project
- Germinate is under active development and we welcome contributions, feedback and ideas on how we can improve.
- We are looking to develop better links to tools like Genesys, GGCE/GrinGlobal, EURISCO, Ensembl & GIGWA.
- Please just give us a shout if you want to try Germinate or want an extended demo.
- Contact myself or Sebastian Raubach for more information!

Raubach, S., Kilian, B., Dreher, K., Amri, A., Bassi, F. M., Boukar, O., Cook, D., Cruickshank, A., Fatokun, C., el Haddad, N., Humphries, A., Jordan, D., Kehel, Z., Kumar, S., Labarosa, S. J., Nguyen, L. H., Mace, E., McCouch, S., McNally, K., ... Shaw, P. D. (2021). From bits to bites: Advancement of the Germinate platform to support prebreeding informatics for crop wild relatives. *Crop Science*, 61(3), 1538–1566.
